DISCREDITS STORY OF HIGGINS DEAL

STORY OF PURCHASE OF DIXON INDUSTRIES IS AN OLD ONE.

HAS GOOD OPENING IN THE SOUTH

Is Making Arrangements to Build Gas Plant in City of 15,000 Inhabitants.

Henry C. Higgins, vice president and general manager of the Sterling, Dixon & Eastern electric railway company, returned from Chicago last evening, where he has been for the past few days. His brother returned with him, and the two gentlemen were interviewed this morning in regard to the rumor that they are negotiating for the purchase of the remaining stock in the two plants here.

Mr. Higgins stated that he was not ready either to deny or confirm the rumors. However, from other sources, information is received which tends to discredit the rumors. Mr. Higgins has secured a franchise for a gas plant in a city of 15,000 inhabitants, where there is no plant of any kind, and the people of that city are anxious to have him come and install a plant. From Sterling it is learned that one of the stockholders of the road stated yesterday that the story of the sale of the road was an old one, that it had been brought up again and again at the stockholders' meetings and that there was nothing to it. The same source gave the information that Mr. Higgins' visit to Chicago was for the purpose of making arrangements for his southern venture.

THIEVES STEAL WIRE OFF POLES

PECULIAR FORM OF COPPER THEFT IS DISCOVERED NEAR BELVIDERE.

Belvidere, July 11.—Thieves are stealing the copper wire from the poles of the through telephone line from Chicago to Dubuque, which passes through Rockford and north of this place.

The thieves are smooth in their work, and replace the stolen strand of copper by a piece of galvanized wire, so that the working of the line is uninterrupted and suspicion of the theft was not roused until linemen found the substitution.

The plan of operation seems to have been to go up the poles and fasten the galvanized wire to the copper at each pole, then cut out the section of copper and proceed to repeat the operation at another point.

As copper has risen in price greatly in the past few years on account of the greatly increased use in telephone and telegraph construction, the proceeds of this form of stealing are immense if it is done wholesale.

The American Telephone and Telegraph company, owner of the line, is taking measures to apprehend the thieves who have been despoiling the newly constructed line.

WET WEATHER MAKES GARDEN TRUCK HIGHER

The wet weather is having its effect on Dixon people. For as a result of the continued rain they are commencing to pay more for potatoes, and unless the conditions change the price will undoubtedly go much higher. A local grocery man stated to the Telegraph this morning that it has been so wet that truck gardeners and farmers have been unable to dig their potatoes and as a result every spud that has been sold here has been shipped in.

LIGHTNING STRIKES AN EAST END HOUSE

Peter Kanzler's home in the East End was struck by lightning last evening about 7 o'clock. The shock frightened the family, but no one was hurt. The lightning came down the chimney and knocked the plaster off the dining room wall, but no further damage was done.

Theo J. Miller was in Woosung this forenoon on business.

MACHINERY ORDERED FOR CORSET FACTORY

COMPANY HAS MEN AT WORK PREPARING THE BUILDING.

NEW INDUSTRY IS A SURE THING

Committees Have Practically Completed Fund for Repairs on the Building.

The Gossard Corset company now has about twenty men busy at the old piano factory, making repairs to the boilers and engine room, preparatory to the occupancy of the building by the company. Some of the machinery for the factory has arrived in this city, some is on the way and all has been ordered, so it will be here in time for installation in the factory as soon as the repairs to the building are completed.

And the present outlook is that the repairs will be started soon. The committee appointed to raise the necessary $3,000 has not completed its work, but will do so in the morning. Everywhere the men have gone they have met with encouragement, and they feel that the people are behind the new enterprise. Bad weather has hampered them some and there are not quite up to the $3,000 mark, but it was given out this afternoon that they are so near the mark that they are safe in announcing that they have completed their purpose and that the work will start soon.

BIG WINDOWS NEED ATTENTION

PLATE GLASS IN SEVERAL STORE FRONTS LIABLE TO FALL OUT.

A well known contractor and builder of this city stated to a Telegraph reporter this morning that there are several big plate glass windows in the business part of the city which are becoming very dangerous, and that unless repairs are soon made the big glasses are apt to fall out and badly injure anyone who may be passing. He pointed out several store fronts where the bottoms of the windows are merely steel strips and where these strips have been rusted and warped by the weather until they have pulled entirely away from the wnidows, allowing the glass to settle. Should these strips give away, he said, there would be very great danger of the glass falling outwards. He is of the opinion that the city authorities should take some action to have hte necessary repairs made.

Defendant Wins Case.

The case of Noble vs. Branegan, which was tried yesterday in Justice Crabtree's court, was decided in favor of the defendant late in the evening. The jury was out but a few minutes.

TEACHERS SELECTED FOR INSTITUTE

SUPERINTENDENT TEDWARDS HAS SECURED SOME VERY ABLE TALENT.

MEETING AT AMBOY AUG. 19-23

Every Teacher in the County Is Expected to Attend—Speak for Lodgings.

Superintendent Edwards has completed all arrangements for his annual institute to be held this year at Amboy, Aug. 19-23. The institute faculty this year will consist of four well known teachers.

Peter A. Downey, assistant superintendent of Cook county, will teach school management and history. Mr. Downey is an excellent instructor in his line.

Ella T. Price of Bloomington will teach primary methods. Miss Price has charge of the primary instruction in the Bloomington schools. She is an expert in her work.

C. E. Joiner of Rochelle will teach geography and history of Illinois. Mr. Joiner is superintendent of the city schools of Rochelle and has a good reputation as an educator.

Miss Irma Voight, a member of the faculty of the Dixon high school, will teach grammar. Miss Voight is well known to many of the teachers and her work in the Dixon schools has been very satisfactory.

Every teacher who intends to teach in Lee county is expected to attend the institute this year. Supt. Edwards has notified all school directors not to have their schools begin until after the institute. If the school begins before that date the teacher is entitled to the week and the law requires the board to pay her wages for the same. Supt. Edwards would like to have the schools begin on the nearest Monday to the first of September, and he thinks the results would be much better. The circular which Mr. Edwards has sent to all directors, calls attention to the state diploma.

Lee county has 56 state diplomas at the present time, which is one-sixth of all that have been given out in the state. Each school board should look well after the condition of the school yard.

Teachers whose attendance and attention at the annual institute warrant it, may have their certificates renewed without taking an examination. All others will be required to take an examination. Should any teachers desire a boarding place or a place to room, they should let Mr. Edawrds know at once, and he will find such boarding place.

The central and final examination questions for 1908 will be based on the eighth year's work of the state course of study. The reading for next year will be Scott's "Lady of the Lake."

Eli Forgot the Necessary.

Eli Rosenthal went to Chicago this morning, but Dame Sayso says that he had a hard time getting away Eli has the bad habit of keeping his money under his pillow. He arose at 4:15 this morning and in his hurry to get to the depot in time to catch one of the earlier trains, he forgot to make his bed. This forgetfulness was the reason he didn't remember his pocket book, and he didn't have the necessary to take advantage of the 2-cent rate. He sent for his wallet and waited for the Sterling passenger.

Will Have Big Shoe Sale.

If you want shoes consult Ford's ad on page three of this issue of the paper. Mr. Ford tells what he has to say in an interesting manner and shoppers will find instruction and valuable information if they read his story.

Mrs. G. B. Marsh and son of Milan, Mich., and Mrs. Anna Safford and children of Rockford are spending the week at the C. V. Chapman home. Mr. and Mrs. Alfred Andrews and daughter and J. W. Bate of Rockford and Rev. G .B. Marsh of Milan are expected Friday to join the guests.

STEVE ADAMS.

Steve Adams is charged in Harry Orchard's confession with having been one of the latter's accomplices in several crimes which, according to Orchard, were planned by the "inner circle" of the Western Federation of Miners. Orchard has testified that he and Adams were the agents chosen for carrying out the alleged plots against men who were to be put out of the way. Adams made a confession to the authorities, but it is said that he repudiated it later.

A gang of horse traders struck town this morning and they interested several local equine owners, who will remember their visit in days to come, for they swapped horses.

FIREMEN HAVE SECRET MEETING

HAVE ADPOTED THE FAD WHICH IS POPULAR AMONG SOCIETIES.

Secret meetings are the fad. The city council, by their executive sessions, have started a craze among societies, etc., which promises to become more popular than anything ever attempted in Dixon. The Volunteer Firemen have fallen in line with the big men, and Wednesday evening they pulled off a big secret meeting, the purpose of which is unknown. Foreman Coakley was interviewed this mornnig by a representative of this paper, and he stated that "nothing was done." And the reporters were stung again.

But from oaher sources it is learned that the Volunteers are planning to get uniforms, and it is whispered that the secret session had to do with this purpose. The firemen want the uniforms, and as far as is known, the people are willing they should have them. But these secret meetings make everybody curious and the people commence to feel they are being left out in the cold by these secret sessions.

JACKSON H. HILLER DIED SUDDENLY

THE WELL KNOWN TRAVELING SALESMAN A VICTIM OF APOPLEXY.

FUNERAL SATURDAY MORNING

Was a Man Who Made Many Friends—Elks Will Have Charge of the Funeral.

Jackson H. Hiller, the well known traveling salesman, is dead. He passed away very suddenly about 9 o'clock last evening at the home of his sister, Mrs. Owen Clymer, in North Dixon. Mr. Hiller has made his home with Mr. and Mrs. Owen Clymer since September, 1900. The cause of his death was apoplexy. He was over town last evening, visiting with his friends, but left for his home early. He was in the best of spirits, and joked and laughed with his freinds as usual. He had retired only a few minutes when his niece heard a sound in his bedroom and with Mrs. Clymer went to the room. They found Mr. Hiller breathing very faintly and unconscious. He passed away a few minutes later.

Deceased was a man whom all who had the good fortune to know, thought a great deal of. He was generous to a fault; and was always ready to assist a friend when in trouble, financially or otherwise.

For seventeen years he traveled for H. W. Price company of Rockford, and was an excellent salesman. He sold gloves, and was considered the best salesman in his line in the state. During the summer he made his home with the Clymer family. He loved Dixon and always enjoyed himself while here. Only a few days ago he talked of making great plans of spending the rest of his vacation. eH loved nature and spent a great deal of his vacation out of doors.

Mr. Hiller was born Sept. 3, 1846, at West Grove, six miles from Forreston. He grew up to manhood in Forreston, and in his early manhood he clerked in one of the stores at Freeport. He leaves to mourn his loss two sisters, Mrs. Clymer and Miss Elizabeth Hiller, and one daughter, Mrs. Lester Brady of Chicago. At the time of his death he was sixty years of age. He was a member of the Masonic order and the Elks, being a member of the Dixon lodge, No. 779. During the civil war the deceased served as a sutler. His father, Henry Hiller, was a lieutenant in Co. H, 34th Illinois Infantry.

Brief funeral services in charge of the Elks will be held Saturday morning at the house at 8:30. Rev. W. H. Hartman of Forreston will officiate. His remains will be taken to Forreston at 9:45 over the Illinois Central, where they will be buried.

FILES A BILL FOR SEPARATE MAINTENANCE

Mrs. Tima M. Veith has brought suit against her husband, W. J. Veith, for separate maintenance. The Veiths reside in Nelson township. They were married in 1873 in the village of Prairieville, and have eight children, the youngest being eighteen years of age. The bill charges the defendant with being cruel and with refusing to support his family. The plaintiff states that this action on part of the defendant commenced about five years ago, and in March of this year she found it impossible to live with the defendant any longer and left him. The defendant is alleged to be possessed of real estate and personal property to amount of $3,000 . The case will be tried in the September term of court.

Mrs. Henry Lebowich and son Emanuel arrived home last evening from New York City, where they have been for the past six weeks. While in the east Manny was placed under the care of an eye specialist, and as a result of the treatment he received and the perfect artificial eye he had made, there is very little appearance of the misfortune he suffered while attempting to let his boat from the boathouse about two months ago.

REV. EARNGEY TO LEAVE ROCKFORD

POPULAR FORMER DIXON PASTOR CLOSES TERM AS PRESIDING ELDER.

SIX YEARS IS LIMIT OF STAY

Will Be Transferred to Another District by the Methodist Conference Next Fall.

Rev. Samuel Earngey and family are to leave Rockford next fall, when the popular former Dixon Methodist pastor will have completed his six years' term as presiding elder for the Rockford district. Soon after leaving Dixon Rev. Earngey was married to Mrs. Fannie Judd of this city and their many friends are interested in their movements.

"Yes, we are to leave Rockford this fall," declared the presiding elder to a Rockford paper. "My six year term will end with the present conference year, and when the meeting is held in Chicago, October 2, I shall give in my final report of this district and be removed to some other. A presiding elder cannot be reappointed to the same district after a six year term, and my six years will close this season."

Continuing, the Rockford paper says: The announcement that Mr. and Mrs. Earngey are to leave this district will be a sorrowful message to Rockford residents, and also to the members of the Methodist congregations in this district, with which Mr. Earngey has been connected the past several years. The Rev. Earngey came to Rockford from Belvidere, where he was pastor of the M. E. church for a number of years. He was named presiding elder in 1901, and sent to this district, succeeding the Rev. F. A. Hardin, father of the Rev. F. B. Hardin of this city.

The Rev. Earngey was born in Ireland, and came to this country when young. He studied for the ministry, and was admitted to the Rock River conference in 1872 and has been connected with it ever since. In his years of ministration to the several churches of which he has been pastor, he has made for himself a large circle of friends, and this is not confined to his own denomination, for the Rev. Earngey is a man of great breadth of mind and has gone beyond the limits of his own church at times, in assisting others when in need of good spiritual aid.

The Rev. and Mrs. Earngey have no idea as to where they will be removed, as this is for the conference to determine. The children of the couple will be away at school, and in order that they may have their property interests disposed of before they leave they have decided to sell as soon as possible.

Notice to the Public in regard to Payment of Excess Fare on Train.

Under the enactment of the Illinois legislature providing for a two cent per mile maximum passenger rate, effective July 1st, 1907, the railroads are authorized to collect as follows when payment of fare is tendered on train:

"If any passenger shall have failed to purchase a ticket entitling him to carriage, a rate of three (3) cents a mile may be charged and collected."

This, therefore, is to advise that collection of excess will be strictly enforced in accordance with the above when payment of fare is tendered on train ffrom a station at which ticket might have been purchased within a reasonable time before the departure of the train. To avoid payment of this excess the public is earnestly requested to purchase tickets before boarding train.

Deafness Cannot Be Cured.

By local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian tube. When this tube is inflamed you have a rumbling sound or imperfect hearing and when it is entirely closed Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition hearing will be destroyed forever. Nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of deafness caused by catarrh, that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

Charlie Remembered Her Well.

A young woman of social prominence and respectability was to unite with the church in her home town and desired the ordinance of baptism by immersion in the river. Among the number that gathered to witness the baptism was a little boy friend, Charlie, about four years old. The proceedings were entirely new to the child, and he looked on with strange curiosity as the candidate was led into the river. The spring freshets had made the river somewhat turbulent, and it was with difficulty that the minister maintained his footing. During the following week the young woman called at the home of his family and after the usual greetings said to the little boy as she extended her hand:

"Come here, Charlie, and see me. You do not know who I am, do you?" she continued.

"Yes, indeed, I do," said the boy. "You is that woman that went in swimmin' with the minister on Sunday."—Judge's Library.

A Canny Scot.

A Scotch cobbler, described on the police books as a "notorious offender," was sentenced by a Forfar magistrate to pay a fine of half a crown, or, in default, twenty-four hours' hard labor. If he chose the latter he would be taken to the jail at Perth. "Then I'll go to Perth," he said, "for I have some business there." An official conveyed him to Perth, but when the cobbler reached the jail he said he would pay the fine. The governor found he would have to take it. "And now," said the cobbler, "I want my fare home." The governor demurred, but discovered there was no alternative. The prisoner must be sent at the public expense to the place he had been brought from. So the canny Scot got the 2s. 8½d., which represented his fare, did his business and went home triumphant—twopence halfpenny and a railway ride the better for his offense.—Scottish American.

Could Not Trust Him.

After a wordy argument in which neither scored two Irishmen decided to fight it out. It was agreed, says the Washington Post, that when either said "I've enough" the fight should cease. After they had been at it about ten minutes one of them fell and immediately yelled: "Enough! I've enough!" But his opponent kept on pounding him until a man who was watching them said:

"Why don't you let him up? He says he's got enough."

"I know he says so," said the victor between punches, "but he's such a liar you can't believe a word he says!"

FLASHES OF FASHION

Black lingerie petticoats are new. They are of fine black lawn and lace and are for wear under black volle frocks. These skirts are considered much smarter than those of taffeta.

Exquisite wistaria arranged in plume fashion trims some of the French hats most effectively. Many sprays are used to carry out the idea, and as the flowers cost $3 a spray the flower plumes attain a cost quite equal to that of ostrich plumes.

Princess bloomers to wear in place of skirts are new in the underwear section. Heavy satin ones lined with china silk are $14.50, and those of pongee and mohair are much cheaper.

Quills, as usual, are very good style this season provided you know what to

SUMMER FROCKS, 5537, 5107, 5547.

do with them. A simple little straw toque seen the other day had no other trimming, but they must be put on with a French cachet, for there is a great art required in arranging a bunch of these quills.

Beautiful mohairs in browns, greens or grays mixed with white are remarkably soft and make up into stunning costumes for traveling and hard wear.

Fascinating bonnets for the small girls are of soft open straw bent in poke shape. The lingerie hat has by no means lost prestige, and many dainty embroidered or flounced ones are shown for the little tots, also very cunning sunbonnets of pique and linen.

In the illustration the young mother wears a ring dotted batiste combined with filet lace and trimmed with embroidery worked into the material. The small girl is gowned in white handkerchief linen, trimmed with bands of valenciennes lace. The guimpe is of embroidered muslin.

JUDIC CHOLLET.

A complete departure from previous styles of colonial ties are those of bronze or patent leather with a strap buckling across the base of the tongue. They are to be worn with pale colored summer gowns and will take the place of the white canvas and colored suede shoes that have become too common. Tan leather will be more worn than for years—in fact, shoes of this shade are a whim of the season. Bronze or black stockings, clocked in groups between conventional stripes, are the latest designs in hosiery.

Paris has introduced a dainty summer slipper with a jeweled heel. The jewels are very tiny, almost inconspicuous, but very attractive in outline. Another French fancy for dressy occasions is the graceful colored slipper edged around the top with tiny flowers exactly matching slippers and the gown.

Kimono tendencies are observable all through the scheme of dress. There

A PONGEE SUIT—5674, 5611.

are kimono sleeves in many of the negligees, while the little coats are fitted out with wide sleeves that fall below the waist line. Not a few of these are gorgeously decorated in the style of the orient.

The illustration shows a very stylish model for a street suit in heavy pongee. It is of the natural color and piped with brown velvet. The short waisted coat gives a modified empire effect that is generally becoming. The skirt is plaited after a novel and graceful fashion. JUDIC CHOLLET.

POLITICAL CHICANERY.

A partisan Chicago newspaper is now taking up much of its "valuable space" in an effort to cripple the Republican party of Lee county, and it has made personal attacks upon active leaders in the organization in hope of weakening the influence of these active members of a party that has so many years stood staunchly for all that is praiseworthy in politics in "this neck of the woods." In its efforts against the Republicans of Dixon particularly, and Lee county generally, though a rank Democratic journal, it has a hypocritical scheme of praising Republicans—a sort of "faint praise" damning operation—before ripping them up the back, the editor thus hoping to gain some sort of a reputation for fairness. The Record-Herald, the newspaper engaged in this dirty business, however, is too intensely Democratic to be fair in anything.

Last Sunday there appeared in the Record-Herald an extended whack at Judge Farrand, inspired, it is thought, by some Dixon lawyer who has a personal grievance against the Judge, and perhaps may have felt that his own greatness is not fully appreciated in the Republican party.

The writer states, among other falsehoods, that the lawyers here are so averse to the "court's" methods, that much of their time is occupied in procuring changes of venue to some other judge. This is what the Record-Herald says, not because the editorial manager believes in telling the truth, but simply through a desire to get a whack at a Republican official. However, it is fair to presume that the Democratic editorial manager aforesaid is furnished material for his falsehoods by some disgruntled Dixon shyster. Some of our good people believe, however, that certain Democratic political managers, whose leaders have been punished by the court for criminal falsehoods against Republican officials, are also among the instigators of this dirty conspiracy. The falsehoods regarding the Judge's official conduct indicates quite clearly that they are, however, instigated by some shyster; and we have a few of them right here in Dixon. It is evident that that Democratic Chicago editor was assisted in his slanders by some one afflicted with a grievance against the court.

The court records clearly show how groundles and false are the charges made in the Record-Herald. The political twaddle is so absurd that it is not worthy of notice. We desire only to call attention to the falsity of the official charges made against the Judge, as shown by the court records.

These appear as follows, regarding the matter of changes of venue by lawyers, so falsely charged:

Judge Farrand was County Judge of Lee county for twenty years and has been Circuit Judge for the past five years, and in all that time there has been but one application for change of venue filed in Lee county, and that was last winter. Upon the statment since made by the attorney filing the application, we learn that it was for no other purpose than to have the trial delayed.

The editor of the Record-Herald is informed by some persons here in Dixon that our lawyers frequently apply for permits to remove their business from Judge Farrand's court. As lairs the Record-Herald informants are a charming lot.

In the other counties in the circuit no application for a change of venue from Judge Farrand has ever been filed in Ogle, Carroll or Jo Davies counties. Four applications have been filed in Stephenson county. Three of them were withdrawn before any action was taken and one was an application for a change from both of the Judges of the circuit, who were doing circuit court work, Judges Farrand and Heard.

So it appears on record that instead as so falsely charged, that many lawyers "take changes to other Judges," all are satisfied to have Judge Farrand try their cases. In all the years of his holding court in Lee county, only one lawyer asked for a change from him, and that lawyer withdrew the motion, explaining that he made it only to gain time, a common trick with lawyers desiring delay.

The Telegraph would call the attention of the Record-Herald, and also the Dixon politicians and shysters that there is not, in the awful catalogue of crimes committed, a more heinous one than that of slander. How true it is now as when it was uttered centuries ago, that a

"Good name in man and woman
Is the immediate jewel of their souls,"
Therefore,
"He who steals my purse steals trash,
But he that filches from me my good name * * * makes me poor indeed."

But your shystering lawyers regard the filching of good names as a very legitimate business transaction. He will take advantage of his official position as an attorney to slander and abuse a good man in court so as to satisfy his client, and earn a fee.

A lawyer who has any respect for himself or his profession will endeavor to conduct himself so as to enjoy an honorable influence among his neighbors; and we have here in Dixon, we are pleased to note, many able lawyers who are also true gentlemen, honoring their profession, and are respected as citizens. It is therefore the more unfortunate that the legal profession is hampered by a few scroundrels and fools, notably those who, though pretended Republicans, furnish falsehoods for Democratic papers to slander Republican officials.

POLLED HEREFORD HERD STARTED IN WHITESIDE

J. T. Williams and Joel Sherman of Woodlawn Farm No. 5 at Round Grove, Ill., have recently been making some extensive additions to their herd of Hereford cattle, having purchased about twenty head of high class animals; among the lot were two bulls with naturally polled heads.

It is only about five years since the breed of poled Hereford cattle was originated. These bulls are sired by pure bred registered Hereford bull that was born without horns, which is what is known in animal life as a freak or sport.

The mothers of these bulls were pure bred registered Hereford cows with horns, but they took after their sire and are without horns, and it is expected that their progeny will in the majority of cases be without horns, and that in this way Woodlawn farm will be able to develop and sell pure bred Herefords without the horns.

THOUSANDS OF ACRES CORN ARE DAMAGED

THE FREQUENT AND EXCESSIVE RAINS HAVE FLOODED THE GREEN RIVER COUNTRY.

HARMON OFFICIALS IN RUNAWAY

President Derr, Trustee Eugler and Clerk Swab Have Mishap While in Dixon.

Harmon, July 11.—Yesterday at about noon began the third heavy rain of the week. It bore no resemblance to an ordinary shower, but came down in an almost solid mass.

At about four o'clock Monday morning there was an electrical storm accompanied by a downpour that soon filled to overflowing the dredge ditches, big and little. So much rain fell that every depression became a miniature lake, and thousands of acres of corn, oats and meadow were damaged, the exact extent of which cannot now be estimated, but will amount to hundreds of thousands of dollars.

Before the ditches and natural waterways had time to more than partially carry off the surplus water, came the downpour of Tuesday. This was followed by the deluge of yesterday.

Over many farms there are wide streams of water, varying in depth from three to thirty-six inches, flowing over the fields of growing crops. Between showers the sun shines hot and this, farmers say, will "cook" the corn.

Many fields of hay are waiting for the sickle, but it would be a poor farmer who would cut his crop while the rain continues to come every few hours. The hay crop is a large one and will provide abundance of feed if it can be properly harvested.

Aftermath of Monday's Storm.

In addition to the damage heretofore reported as occurring as a result of Monday's electrical, wind and rain storm, John Miller had a horse killed by lightning. On Dennis Considine's farm the barn was racked by the wind to such an extent that it will fall when stricken by the first zephyrs unless repaired. On the Minke 80 in Hamilton a large double corn crib was split in two by the wind, the west half upset and the east half torn to pieces and scattered over several acres of ground.

Green River is out of its banks, and several of the big bridges are unsafe. Carrier Ed McCormick, on route No. 3 was unable to deliver to his patrons south of the river Tuesday and Wednesday. The north end of the big bridge was so unstable that a man by jumping up and down on it would cause it to lower or raise six inches, and large hunks of the approaches were falling into the water.

Farmers, even if no more rain falls, will be able to do little in the fields this week.

Village Officials Shaken Up.

While President Durr, Trustee Kugler and Clerk Swab of the Harmon village board were driving along College avenue, Dixon, on their return home Monday evening, their horse scared at the street car and threw the driver, President Durr, to the pavement. He lit on his head, and as he touched the ground the horse kicked him on the head.

As soon as the horse was free from restraint he started to run north, the lines dragging on the ground, out of reach of the occupants of the buggy. Mr. Kugler thought it best to jump, which he did, alighting on his head and left hand.

Of the three ,one was thrown out, another jumped out and one remained. The horse continued to run north at full gallop and refused to be stopped by pedestrians. By crawling forward with one hand along the shaft and the other holding the back strap the lines were reached and the horse was brought under control when First street was reached.

On reaching the scene of the accident the wounds of Messrs. Durr and Kugler were being bound up. Both the victims' heads were cut over the left eyes. The fall and kick of the horse stunned Mr. Durr for a few minutes, so as to render him unconscious. The left hands of both gentlemen were cut and bruised and each breath drawn by the parties causes much pain.

As soon as the motorneer saw that there was trouble with the horse he stopped the car a few rods south of Fourth street, where the accident occurred. No part of the harness nor vehicle was broken, and, althogether, it was fortunate that the accident was no more serious.

Cut Foot With Scythe.

William Step, while mowing weeds Tuesday, stepped on the scythe he was using and cut his foot to the bone. The wound was on the left foot and extended from the big toe diagonally across the foot five inches. The young man, who is fifteen years old, was brought to Harmon, where Dr. DuVall found it necessary to take seven stitches to close the wound.

J. H. Rhodenbaugh made a business trip to Dixon Monday.

Mrs. Kate Mongoven was a Dixon visitor Monday.

Mrs. George E. Ross escorted the Carlisle twins, her nieces, to their home in Robinson, Ill., Tuesday. Mrs. Ross will visit her relatives in Robinson during the present month.

Frank O'Brien, Sr., and E. H. Kirwan transacted business at the county seat Monday.

John Miller had a horse killed by lightning Monday morning. It was insured in the Palmyra company.

Town Clerk Frank Hettinger has received the necessary blanks for making out certificates for bounties on crows, crow eggs and ground hogs.

Mrs. W. H. eKlchner and children of Dixon are visiting Harmon relatives.

Mrs. John Reilley and daughter Mamie of Chicago are visiting with Father Smith this week.

James Mangus of Dixon passed through Harmon yesterday on the way to his farm, southwest of town.

H. J. Durr, W. H. Kugler and Benj. F. Swab of the village board transacted business with County Clerk Thompson Monday.

Motion for a new trial by the plaintiff in the case of Frank Keenan vs. John Drew was argued before Judge Scott yesterday.

George Stainbrook of Dixon was in Harmon yesterday on business.

Rc. Swab was a business visitor to Sterling and Rock Falls Wednesday.

There will be no ball game here Sunday.

NELSON.

Nelson, July 11.—The Fourth passed off pleasantly, with no accidents reoprted.

Mrs. Geo. Joyce and son of Belvidere are visiting the lady's sister, Mrs. H. W. Phillips, for a week.

Miss Carrie Lease and Ross Emmitt and family spent last Sunday at D. B. Lease's.

John Ortgiesen and wife entertained on last Wednesday Mrs. George Ortgiesen and three children of Des Moines, Chas. Barton and family, Mrs. Jake Hyde, Dave Ortgiesen and Misses Kate Ortgiesen and Mollie Portenius.

Frank Talmage lost a good horse last week. It was suposed it was overcome with the heat.

Gus Keister had two cows struck by lightning and Add Hollenbeck's windmill was also struck. Much damage was done by the hail to corn and grain Wednesday night.

Mr. and Mrs. George Wilkins and daughter of Chicago visited at the home of his parents last week.

Miss Agnes Kirk has returned home, after a week spent with her sister, Mrs. W. M. Phillips.

Mrs. Dave Reed and two children spent Saturday here with relatives.

John Ortgiesen and family and Misses Louise Portenius and Olga Marteson spent Sunday at John Ortgiesen's.

DEMENT TOWN DOINGS

It certainly looks as if the tobacco trust would be smoked out.

A woman will wade through a four column story which tells of a scandal about a woman she don't like, and the next minute she will tirade against the newspapers because they print such long stories about Mrs. Blank's pink tea. Therefore, how would you like to be on a newspaper?

Wonder if the prosecution of the tobacco trust will include some action against the brown paper manufacturers whose goods have been used extensively in several well known and popular brands of plug cut.

It would be a good thing for humanity if the people who are continually working up war scares would be compelled to stand in the front ranks and do all the fighting.

MOYER VS. ORCHARD

Head of the W. F. M. Goes on the Stand and Denies Everything.

HAD NOTHING TO DO WITH CRIME

Never Guilty of Anything of Which He Is Accused.

Explains the Federation Action in Employing a Lawyer to Defend Orchard in the Steunenberg Case.

Boise, Ida., July 11.—Charles H. Moyer went to the stand yesterday, a witness for his fellow-defendant, William D. Haywood, and beside making positive denial of all the crimes attributed to him and the other Federation leaders by Harry Orchard offered an explanation of the unsolicited appearance of the Western Federation of Miners as the defender of

CHARLES H. MOYER.

Harry Orchard immediately after his arrest at Caldwell for the murder of Steunenberg. Moyer swore that it was Jack Simpkins who engaged Attorney Fred Miller at Spokane to go to Caldwell to represent Orchard, then known as Thomas Hogan, and that it was at the request of Simpkins that the witness and Haywood subsequently advanced $1,500 from the funds of the federation to meet the expense of defending Orchard. He said, however, that it was the custom of the Federation to defend its members when they were accused. He said also that he never saw Orchard until January, 1904.

Cipher Telegram in Evidence.

At various stages of the re dat the defense offered in evidence a number of documents, including a heretofore undisclosed cipher telegram which Simpkins sent to Federation headquarters and the union at Silver City, Idaho, covering the moves to protect the federation, which was charged with the crime within a few days after it occurred.

Message Was Suspicious.

Moyer began by saying that he got his first knowledge of the crime from the Denver newspapers, and that on the evening of Jan. 4, five days after the crime, a telegram in the Federation's cipher—a code in which certain numerals represented the alphabet and published in the ritual of the organization was used to transmit the password to local unions—came to Haywood from Spokane. It was long and the translation was difficult and uncertain, but he and Haywood figured the next day that it was signed by Simpkins and read: "Cannot get a lawyer to defend Hogan. Answer." Moyer testified that he was suspicious about the message, the newspapers having already charged the crime up to the Federation and that he decided to consult J. H. Murphy, regular counsel for the Federation, before he took any steps.

ORCHARD'S STATEMENTS DENIED

How the State's Star Witness Came to Act as Bodyguard.

Moyer said he left Chicago that afternoon, but that Haywood took the matter up and opened communication with the union at Silver City and made arrangements to engage Attorney John Nugent to look after the interest of the Federation and defend Orchard, if necessary. The defense produced copies of this correspondence and all of it was read into the record. Continuing, Moyer said that Attorney Miller came to Denver about the first of the following month, bringing with him the record of Orchard's preliminary hearing. Miller went to Denver at the suggestion of Simpkins, so the witness testified, and brought a request from Simpkins that the Federation furnish the large amount of money that would be needed to defend Orchard.

Moyer said that he and Haywood conferred with Attorneys Murphy and Miller and subsequently gave Miller $1,500. Moyer denied that he had ever discussed any kind of criminal act with Orchard or any one else, or that he had ever given him a cent except for expenses on the trip Orchard made to Ouray as a bodyguard for him. He said that he had no personal feeling of hostility for Steunenberg, and that there were no circumstances that would make him desire the life of John Neville, whom Orchard testified Moyer wanted killed. Moyer said that Neville came to him after his arrest for alleged complicity in the Independence station affair and asked that the Federation give him $200 to reimburse him for the expense that he had incurred in clearing himself, but this request was refused.

Moyer denied that he participated in the conference in Pettibone's back yard, where Orchard said he, Haywood and Pettibone had discussed various acts of violence; denied knowledge of the subsequent meeting at Federation headquarters, where Orchard swore that the Steunenberg and Neville "executions" were planned; practically every material statement in all of Orchard's testimony. Moyer explained that Orchard accompanied him to Ouray because Orchard was going to Silverton, and they made the journey together as a matter of convenience. Representatives of the Federation of Miners had been beaten up by thugs employed by the mine owners, and the witness and Orchard took along cut-off shotguns for their own protection.

Moyer swore that his gun was not subsequently used to kill Lyte Gregory, but that Orchard returned it to the witness after they got back to Denver, and the weapon had never been discharged up to the time Moyer was arrested.

TELLS OF TWO ARRESTS

Court Won't Let Him Tell About His Alleged Kidnaping.

Moyer remained on the stand under direct examination from shortly after 10 in the morning until a few minutes before 4 in the afternoon, and most of the time was taken up with a recital of the witness' connection with the Federation of Miners. He told a detailed story of arrest at Ouray and his transfer to Telluride, where the military refused to recognize the processes of the courts set in motion to effect his release. He was arrested on the pretext that he had desecrated a flag by the issuance of a Federation handbill denouncing the methods of the state officials, mine owners and militia, on which an emblem of the United States flag was reproduced. A copy of this handbill was introduced and then the witness told of the various efforts to secure his release and of his subsequent arrest on the charge that he was implicated in the Vindicator outrage.

The defense wanted to prove all the circumstances under which Moyer and his associates were secretly arrested in Denver, denied communication with counsel and taken to Idaho by special train, but the state opposed it. The court ruled that the circumstances of the transaction were not properly a part of the defense.

The defense also attempted to show the political situation in Colorado in 1904-5, how the excitement was great, and how Peabody and other state officers were denounced by many beside members of the Federation, the denunciations proceeding to the extent of implied threats of lynching, but the court ruled it out. The direct examination of Moyer was completed at the adjournment of court for the day.

MANY GROUND HOGS ARE BEING KILLED

BOUNTY, OF TWENTY-FIVE CTS. PER HEAD IS RECEIVED.

TEXT OF THE NEW STATE LAW

Hunters in Lee County Must Get an Affidavit From Their Town Clerk.

The farmer boy is getting rich on account of the recent ground hog law. He has more spending money now than he has had in years gone by. This rainy weather, when it is impossible for him to plow corn and make hay he takes his 22 rifle and goes out into the fields and groves and lies in wait for the poor ground hog. If Daniel Webster were only alive now to plead for the poor woodchuck or ground hog. Boys, you certainly have read that story of how Daniel saved the poor woodchuck. If you have not read that interesting story, why, read it. But, who can blame the boys? The law of Illinois gives him the right to shoot the ground hog, and the farmer boy is living up to the letter of the law. His best girl will eat ice cream and drink red lemonade from money obtained from the scalp of the poor ground hog.

The law went into effect the 1st of July, and since that date forty-four ground hogs have been killed in Lee county, at least that number of scalps have been paid for by County Celrk Thompson. tA eight o'clock this morning a young man from Palmyra township brought in six more scalps, but he was told to return to the town clerk of his township and get an affidavit stating that he had killed that number of ground hogs. He will return, perhaps this afternoon or early Friday morning, and get his $1.50.

For the benefit of the boys and all others interested in the ground hog bounty the law is published in full.

The Law.

Section 1. Be it enacted by the People of the State of Illinois, represented in the General Assembly: That every person who shall kill any ground hog in any county in the state of Illinois shall be entitled to receive a bounty of twenty-five cents for each ground hog killed, to be allowed and paid in the manner hereinafter provided.

Sec. 2 Every person applying for such bounty shall take such ground hog or the head or scalp of such ground hog in lots of not less than four to the county clerk in counties not under township organization, or in counties under township organization to the township clerk of the township within which such ground hog shall have been killed and make proof of the killing of said ground hogs to the said clerk by affidavit of the person killing the same under oath or affirmation administered by said clerk and sgined by the affiant and stating in said affidavit that said ground hogs wer killed within the limits of the county in counties not under township organization or in counties under township organization within the limits of the township in which said bounty is applied for. Whereupon the said clerk if satisfied of the correctness of such claim shall issue a certificate to the person claiming such bounty, stating the amount of bounty to which said applicant is entitled and deliver the same to said applicant, and said clerk shall destroy the heads or scalp of such ground hogs.

Sec. 3. Such certificate may be presented by the claimant or their agent to the county clerk of the county in which such ground hogs were killed, who shall thereupon draw a warrant for the amount of said bounty on the treasurer of said county and said treasurer shall upon presentation of said warrant pay the same from the general or contingent fund of said county.

Lecture Postponed.

The preparatory lecture to have been given last evening at the Presbyterian church was postponed owing to the fact that there were no lights. The lecture will be given Saturday afternoon at 3 o'clock at the church.

Sporting Notes.

ROSENSTRATER AND BOB WILL PITCH THE GAMES

Manager Miller Will Have Two Crack Slab Artists in Games With Galena.

Rosenstrater, the Oregon twirler, who last leason twirled for the Elgin Nationals, will pitch one of the games against the Galena Independents, who play here Saturday and Sunday And Silent Bob will work in the other game. Rosenstrater is one of the best in these parts, and Bob has demonstrated this season that he is some pitcher, too. Therefore there will certainly be some great box work in the two mills.

The Galena line-up makes the local fans think of the old Morrison bunch. Friend, Shelld, Quinn and Strawbridge are the men who will play here who have played here with the team from Whiteside county's seat. Palmer, who has speed like an express train, will work in Sunday's game against the Browns.

"Windy" Will Play.

"Windy" Miller, who is with the Madison team, and who is one of the best ball players Dixon ever turned out, will occupy left field in these games. Guess that won't be good news for the fans. Windy can hit like a champion, and despite his recent sickness, will be a wonderful help to the locals. So there's nothing to it that the two best games of the season will be played Saturday and Sunday.

Notes.

If Chicago's Cubs want to smash their last year's record they'll have to settle down They have already lost eighteen games, which is half as many as they lost during the entire 1906 season.

Those who went to Mendota yesterday to see the races were disappointed, for a wet track made postponement necessary.

To Go to St. Paul.

Steve Stift, the fast shortstop of the Browns, has received a telegram from the manager of the St. Paul American association team telling him to report at once. Stift will play relief catcher with the team. The Dixon fans will be sorry to learn of his loss to the fast local bunch.

The Independents will play in Compton tomorrow and in West Brooklyn on Staurday.

The Oakwoods and Sterling Greys should have a great game Sunday afternoon. The line-up of the two teams will be published tomorrow.

Admirals Yamamoto and Evans Foregather and the War Is Indefinitely Postponed.

ONLY ONE BRIEF ENGAGEMENT

"Fighting Bob" Describes It and Calls It a Friendly Draw.

Jap Intimates That the Trouble Is Mostly Located in Editorial Rooms and Journalistic Brain Storms.

New York, July 11.—Admiral Baron Yamamoto, one of Japan's most distinguished naval officers, is the guest of New York. The admiral and his suite arrived here from England on the steamer Carmania and will remain here until July 15. The admiral's first day in New York was a busy one. He was interviewed by half a hundred

ADMIRAL GOMBEI YAMAMOTO, JAPAN.

reporters, had his photograph taken a score of times, received visits from Major General Frederick D. Grant, Rear Admiral Robley D. Evans, Captain J. D. Adams (acting commandant of the New York navy yard), and a number of other military and naval men, took a long automobile ride and dined with the members of his party.

War Scare a Press Scare.

In his interviews the admiral deprecated the war scare which has recently appeared in both Japan and the United States. He said that no small incident could break the friendship which has existed for so many years between Japan and the United States. He thought the sensational press of the two countries largely to blame for the war talk. As to the prospective transfer of the great Atlantic battleship squadron to the Pacific, that was a matter solely for the United States government to decide, and one that did not interest him in the least except in that it was a novel naval experiment.

Settled by Two Old Sea Dogs.

Rear Admiral Evans, who is an old friend of Admiral Yamamoto, called on him during the afternoon, and the two sailors had a long chat together. After the visit Admiral Evans said they had settled the whole matter of war between America and Japan and had declared peace. Admiral Yamamoto, he said, agreed with him that war talk was all nonsense. "We settled the whole question ourselves," said Admiral Evans, "and the first and last shots were fired by the photographers. The admiral and I are old friends." On Friday Admiral Yamamoto will lunch with President Roosevelt at Oyster Bay.

SAVED THE DAY AT SHILOH

Death of the Scout Who Found Out How Close the Confederate Forces Were.

Oconomowoc, Wis., July 11.—Gilbert Kenyon, who is said to have saved the Union army from defeat at the battle of Shiloh, was killed by a Chicago, Milwaukee and St. Paul railway train at the Maple street crossing. Kenyon was a member of company B, Sixteen Wisconsin infantry, and at the time of thebattle was acting as scout.

In his endeavor to gather information he accidentally got within the Confederate lines. During the night he made his escape and returned to headquarters and imparted the information of the closeness of General Johnson's forces, which act, it is said, saved the Union forces from defeat.

Combine in Leather Stopped.

Newark, N. J., July 11.—Consolidation of the United States Leather company with the Central Leather company has been enjoined by Vice Chancellor Emery on application of James C. Colgate and other holders of preferred stock of the United States Leather company. Colgate and others opposed the consolidation on the ground that they were entitled to be paid accumulated dividends of 45 per cent. from the surplus of the United States Leather company.

Forts Repel the Enemy.

Newport, R. I., July 11.—Both Forts Adams and Greble repelled the attacks of the enemy in the mimic warfare which is being conducted by the war department in Narragansett bay.

Two-Cent Fare for Wisconsin.

Madison, Wis., July 11.—By a vote of 15 to 11 the senate passed the two-cent fare on all lines having a gross earning of $3,500 per mile.

WOMEN'S WOES.

Dixon Women Are Finding Relief at Last.

It does seem that women have more than a fair share of the aches and pains that afflict humanity; they must "keep up," must attend to duties in spits of constantly aching backs, or headaches, or dizzy spells, bearing down pains; they must stoop over, when to stoop means torture. They must walk and bend and work with racking pains and many aches from kidney ills. Kidneys cause more suffering than any other organ of the body. Keep the kidneys well and health is easily maintained. Read of a remedy for kidneys only helps and cures the kidneys and is endorsed by people you know.

Mrs. L. Sindlinger of 220 West Chamberlain street, Dixon, Ill., says: "I was a sufferer from severe kidney complaint for a number of years. The weakness across the small of my back and hips, and the lameness in my limbs was such that I had to lie down quite frequently, and when I tried to get up I would be stiff and the pains were still there. In addition to this my kidnye secretions gave me much annoyance. They were far too frequent, both day and night, very dark in color and of a strong odor and contained a red sediment like brick dust. My attention was called to Doan's Kidney Pills as a remedy for this trouble and I procured a box at Leake Bros.' drug store. I made a statement at that time that oDan's Kidney Pills cured me entirely, and I am glad to state now that I have had no return of the trouble, and I owe it all to Doan's Kidney Pills."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

Remember the name—Doan's—and take no other.

G. B. Burnham testifies after four years:

G. B. Burnham of Carlisle Center, N. W., writes:

"About four years ago I wrote you stating that I had been entirely cured of a sever kidney trouble by taking less than two bottles of Foley's Kidney Cure. It entirely stopped the brick dust sediment and pain and symptoms of kidney disease disappeared. I am glad to say that I have never had a return of any of those symptoms during the four years that have have elapsed and I am evidently cured to stay cured, and heartily recommend Foley's Kidney Cure to any one suffering from kidney or bladder trouble."

For sale by Rowland Bros.

Bad sick headaches, biliousness or constipation are quickly relieved by DeWitt's Little Early Risers. Small pill, sure pill, safe pill—prompt and pleasant in action. Sold by Rowland Bros.

JOHANNESBURG IS ANXIOUS

Strikers at the Mines There Are Doing Dynamite Deviltry—Damage Done and People Hurt.

Johannesburg, Transvaal, July 11.—A series of dynamite outrages, fortunately not accompanied by fatalities, has occurred in the vicinity of the mines, the white workmen in which are on strike. The Crown hotel at Ecksburg and the water main supplying the Simmar and Jack mines were destroyed by explosions which did much damage and injured several persons.

At about the same time attempts were made without success to destroy the shaft and engine house of the Casson mine and the shaft of the Modderfontein mine. A feeling of anxiety prevails throughout the district.

Yacht Hamburg Is Wrecked on the Run from Heligoland to Ostend —Two Sailors Drowned.

Hamburg, July 11.—The yacht race from Heligoland to Ostend was attended by a fatal accident. The German schooner yacht Hamburg, belonging to the Nord Deutscher Regatta Verein, was almost totally wrecked by a terrific storm.

The schooner's masts were unshipped and she was otherwise damaged. Two members of her crew were drowned and the remainder were rescued with difficulty. The Hamburg defeated the yacht Meteor, belonging to Emperor William, at the Kiel regatta two years ago.

Liner Has a Close Call.

New York, July 11.—The steamer Kronprinz Wilhelm, which has arrived with Baron Speck von Sternburg, the German ambassador, on board, collided with an iceberg Monday morning four days out from Bremen. The ship was running at reduced speed and struck the berg a glancing blow, so that no damage was caused. The accident occurred at night and few passengers were aware of its occurrence.

Schmitz Gets a Mandamus.

San Francisco, July 11.—Following the refusal of Judge Dunne to admit Mayor Schmitz to bail pending his appeal the district court of appeals has granted a writ of mandamus against Judge Dunne, commanding him immediately to fix a date for settlement and to settle the bills of exception in the Schmitz case, or to show cause why he has not done so.

Pith of the Crop Report.

Washington, July 11.—The department of agriculture reports the condition of crops on July 1 as follows: Corn acreage, 98,099,000; condition, 80.2. Winter wheat condition, 78.3; spring wheat, 87.2; all wheat, 81.6. Amount in farmers' hands, 54,853,000, equivalent to 7.5 per cent. of the crop of last year.

Another Knowing Correspondent.

Paris, July 11.—The St. Petersburg correspondent of the Petit Journal says in a dispatch: "The object of the meeting between Emperor Nicholas and Emperor William which will take place during the autumn is to discuss means of effecting a close understanding between Russia, Germany and the United States."

Situation in South France.

Paris, July 11.—It was officially announced that up to date forty-three out of the 300 mayors and municipalities of the south of France have withdrawn their resignations tendered in sympathy with the wine growers' movement.

Stolen Portrait Is Returned.

Berlin, July 11.—The portrait of Emperor Nicholas of Russia which was mysteriously stolen from the gallery of this city Tuesday has been returned to the gallery by mail.

CHARGE NOW MURDER

Arrested for Taking the Lives of Two Men with an Infernal Contrivance.

REVENGE FOR BEING JILTED?

Looks Like That Might Have Been the Murder Motive—Smulski's Interest Payment—Items.

Belleville, Ill., July 11.—A warrant has been issued charging Joseph Genetti with the murder of his cousin August Genetti, and Louis Colognia, two miners killed several days ago by the explosion of an infernal machine in Consolodated mine No. 17 near Collinsville. When the miners opened a tool chest two cans of giant powder were ignited, exploding and killing both. Kate Genetti, sister of August Genetti, had said that she was certain the infernal machine by which the two men were killed was prepared by a young man whom she had refused to marry, and from this remark the officers worked up the case against Joseph Genetti, who was the young man referred to.

Infernal Machine Described.

In the locked tool and powder chest used by August Genetti and Colonia some time between the preceding Thursday evening and July 1 there was placed a double barreled pistol with both barrels loaded. The trigger was fastened by a copper wire, passing through the two eyelets to the lid of the chest in such a manner that it would be pulled and the weapon discharged by raising the lid. Two holes were punched in the sides of a small powder keg within the chest and the two barrels of the pistol were left pointing toward these in such a manner that their discharge could not fail to explode the powder.

Device Did Its Work.

The device did its intended work when Colonia opened the chest. Colonia was so badly burned that he died a few hours later at St. Mary's hospital in East St. Louis. Genetti, who also was taken to the hospital, died later. Relatives of the dead men say it is not the custom in Italy to invoke the law for punishment for such crimes.

Requisition for a Murderer.

Springfield, Ill., July 11.—Governor Deneen has issued a requisition on the governor of West Virginia for the return to Danville, Ill., of John Theodore Carrington, who is charged, together with George Carrington, with the murder on Aug. 2, 1903, in Vermillion county, of Lydia Carrington by shooting her.

Climax of an Anti-Liquor War.

Bloomington, Ill., July 11.—A sensational climax to a series of prosecutions of saloonkeepers for violations of the law relative to keeping open on Sunday came when John J. Carroll, a saloonkeeper, severely assaulted J. Scott Hyde, a leader of the temperance forces. Edward Lukes, who had been assisting Hyde in collecting evidence, came to the rescue, and all were badly bruised.

HE TURNS IN THE INTEREST

State Treasurer Smulski Gives Up Cash and Establishes a Precedent in Illinois.

Springfield, Ill., July 11.—For the second time since his induction into office last January, John F. Smulski, state treasurer, has turned into the state the interest received on state funds. Smulski this last time credited the state with $26,677.62. This amount covers the interest received on state funds from April 1 to June 30 last. Early in April Smulski turned into the state treasury $13,314.42. The two payments make a total of $39,992.04, which has been received in interest on state funds by Treasurer Smulski.

In this procedure State Treasurer Smulski has established a precedent. In the past it has been customary for state treasurers to retain all the interest received by them upon state funds. In the constitution of the state no provision is made for the loaning of state funds, and it has been generally conceded in the past that the state treasurer was entitled to whatever interest he could secure on the money in his hands. In recognition of his policy the legislature has appropriated $4,000 per year for Smulski in addition to his salary.

Incident of a Franchise Dispute.

Moline, Ill., July 11.—Mayor Johnson, of East Moline, stopped the cars of the Moline, Rock Island and Eastern Interurban company because the city and the company failed to reach terms on a franchise ordinance. The company offered a bonus of $10,000 and an agreement to build twenty-five miles within five years. The city insisted street lighting along the line and forfeiture of franchise for failure to build an extension.

Flames Among the Coffins.

Decatur, Ill., July 11.—Fire did $25,000 damage in the plant of the Decatur Coffin company. Two firemen who fell with the fourth floor into the basement were dug out with but slight injury. The fire is supposed to have been caused by crossed electric wires.

Badly Hurt in a Runaway.

Peoria, Ill., July 11.—Willis Hall, a prominent broker, is in St. Francis hospital as a result of serious injuries sustained in a runaway. He was driving with his family and when descending a hill at Glen Oak park the neckyoke broke.

CAUSED BY CARELESSNESS

Four Lives, Perhaps Nine, Lost in a Building Collapse That Was Easily Preventable.

Philadelphia, July 11.—Three men are known to have been killed, one was fatally hurt and eighteen others were injured in the collapse of a new concrete building at the plant of the Bridgman Bros. company, manufacturers of steamfitters' supplies. The building was just being put under roof when a section about thirty feet in width and extending the entire depth of the structure collapsed. About thirty men were at work on the side which gave way, and they were carried down in the debris. The body of Marshall Hopkins, aged 45, and the bodies of two unidentified colored men have been taken from the ruins.

It is believed that there are others buried under the heavy mass of concrete, as the police and contractors have not been able to locate two Italians and three colored laborers who were on the building when the accident occurred. Jacob Smith is the man fatally hurt. The building collapsed, according to the admissions of C. B. Miller, boss carpenter, because the shorings were taken away from the concrete before it had properly set.

No More Pool Room Boats.

Chicago, July 11.—The department of commerce and labor has ruled that there shall be no more gambling boats allowed to run on any of the great lakes. This decision was reached after an investigation of the controversy between the local city authorities and the owners of the "floating pool room" City of Traverse.

Lucky Bunch of Laborers.

Mitchell, S. D., July 11.—Forty laborers on a wrecking train had a narrow escape from death in a wreck on the Milwaukee road three miles east of here. Three cars of the train were precipitated into the James river, but the coach containing the workmen landed on top, and not a man was seriously hurt.

Endeavorers Meet at Seattle.

Seattle, Wash., July 11.—In the presence of 10,000 delegates Dr. Francis E. Clark, president of the United Society of Christian Endeavor, called the twenty-third international convention to order. A chorus of one thousand voices swelled the welcoming ode.

Low Fares for Merchants.

Chicago, July 11.—Eastern railroads have decided to grant reduced rates for merchants' meetings to be held in Chicago, New York, St. Louis and Cleveland. The rate will be one and one-third fares for the round trip on the basis of three cents a mile.

Sultan Is Real Mad, Now.

Tangier, July 11.—It is declared here that the sultan of Morocco is deeply incensed at the recent capture by the bandit Raisuli of Sir Harry MacLean, to whom he was greatly attached. The sultan is preparing to march personally against Raisuli.

Drowning of a Chicago Epileptic.

Grand Rapids, Mich., July 11.—Thomas Smith, 60 years of age, a teaming contractor of Chicago was seized by an epileptic fit while launch riding on Spring lake. He jumped into the lake during the seizure and was drowned.

DINING IN NEW YORK

A Couple's Experience at Sherry's and Delmonico's.

ATE WELL AT LITTLE COST.

The Four Meals, Exclusive of a Tip of a Quarter in Each Place, Only Consumed a Five Dollar Bill—What Did the Waiter Mean by "Pikers?"

Many persons have heard of the man who came to New York and hated to leave without having eaten at Delmonico's. All he thought he could afford was a piece of pie, says a New York correspondent of the Indianapolis News. He went in, got that, paid the check and was able to say at home that he had dined at Delmonico's. In the same way visitors to New York often look longingly into the windows of Sherry's and Delmonico's without realizing that they could go in and eat a meal without having it cost them as much as they fear. It is perfectly true that what one may spend in both of these places is almost without limit. It is, however, also possible to get a dinner in either of them for much less than is commonly supposed.

"I'll tell you my experience," said a woman who came down with her husband from Putnam county to see New York and had to do it on a limited capital, "and you will see from it that one may still go to see the swell restaurants in New York and not have to leave his overcoat behind him. When I left home I made up my mind that, poor as I was, I was not coming back until I had eaten in either Delmonico's or Sherry's, and if possible both. For years I had been asking my friends who came back to town if they had seen either of these places. All of them had talked about them before they went, of course, and they'd go there. All of them that I asked had ridden by and seen the outside only.

"I determined it would be different when I went down to see New York, and I told my husband that the money I had to pay our board with wasn't any more important than that I wanted to eat in those restaurants. I wanted to see the way things are done there, and before we left home he gave me a separate sum of money to be used only for that purpose. He didn't approve of the plan at all, because he thought nobody should go to such places unless they had money enough to act like all the others there. I knew I wouldn't get any more money for that purpose, so I decided to make the best of what I had and try to make it do for two places.

"My husband wasn't the only man in Sherry's without a dress suit when we got there, and I wasn't the only woman with a hat on, although there weren't many there like mine. There were two waiters to take our order, but one of them—he was a sort of head waiter—faded from sight when he began to see that we would not need more than one. I thought the waiter looked at me harder than was necessary while I was reading the bill of fare; but, generally speaking, he was very nice. They were all polite enough for that matter.

"Perhaps he thought I was looking at the bill of fare too long. I was trying to figure out the cheapest dinner in the place, and I think I did. The bills change every night, but they tell me that dishes at about the same figure are always to be had.

"Naturally I skipped caviare at $1.50 a portion, but didn't mind that, as I don't like it anyway. I took soup—cream of lettuce with puffed crusts—which was the cheapest. It cost only 30 cents, while the others were 40 or 50. The soup was enough for two. Then I had for choice at 30 cents either smelts or bluefish. One portion was not enough, and that course was expensive. The meat that we had was loin of veal stuffed with breadcrumbs and [illegible] at 50 cents per portion was enough for two. With that we had potatoes laurette, which were sliced and cooked in cream, for 25 cents. We passed up fresh asparagus at $1.50 a bunch and had lettuce at 30 cents and pie at a quarter each. There were new strawberries at $1.50.

"That was dinner enough for anybody, and we saw the place, had all the beautiful sweet butter we wanted and the good French bread, and it cost us only a little more than if we had gone to a table d'hote. The dinner for two cost $2.45, and we gave the waiter a quarter.

"We didn't have wine, as all the others seemed to be having, but I never had it anyhow and didn't miss it. When we got up and left, there was nobody who looked as if they had enjoyed themselves more than we had. The waiters? I didn't care how they looked. We were there to enjoy ourselves and not to please them.

"I had $5 for that dinner fund, and as I had $2 left over I decided to see if Delmonico's could not be included for that amount. So we went there.

"There we had puree of pea soup, which for the two of us cost 40 cents. The cheapest fish was 50 cents. For that we had a choice of haddock or frostfish. I didn't know what frostfish were and had heard of haddock, so we took that. We were already 90 cents in after two courses, so I had to go prudently for the rest of the meal. I passed up the broiled young turkey for $2.50, therefore, and took roast mutton for 60 cents, which was the cheapest thing on the bill. There were potatoes for 30 cents, as usual, the cheapest of all the vegetables.

"I had a craving for something else besides potatoes, however, and decided to plunge on fried eggplant, which cost 10 cents more. The cheapest salad was 60 cents, so we cut that out and took plombiere chestnuts at 60 cents for ice cream. We dined in the big room on the corner, which was filled with people. This dinner amounted to $2.50 only.

"I've known plenty of people who came to New York with more money than we had who never got any nearer these two places than to pass by and look in the door. They lacked nerve. That was the trouble with them. I'll bet, moreover, that there are lots of people in this city who wouldn't dare go in either of those places just because they think they will have to spend too much or give the waiter too much. Each night we gave him a quarter. Say? He said nothing. As we came out of the dinner the first night I heard one of the waiters in a dress suit by the door say something about 'pikers.' I don't think he could have been talking about us, though. I didn't understand, anyhow, what he meant. What is a piker anyhow?"

Women and Fines.

The agent from the fire insurance company came to investigate the claim for damages. He listened to the little woman's tale of how the fire commenced and how she put it out.

"Yes, yes, I know," he nodded appreciatively. "In this business we get to know what tremendous courage and presence of mind you women have. Nearly every fire in New York that does not attain great proportions is put out by a woman. There are little fires every day that never spread farther than one room of the flat because the women at home face the danger promptly and put them out. In the poorer quarters where both father and mother are out at work it is very often a girl of twelve or thirteen who smothers the flames and carries a few scars through life as a result, and in every instance it is because there are little brothers and sisters to be saved. In the last place I visited it was a girl of twelve who first carried two little ones safely to the hallway and then rushed back to pull down the flaming curtains. By the time help came she had the fire almost extinguished."—New York Sun.

Cradle Lore.

In many parts of Great Britain it is considered extremely unlucky to rock or set in motion an empty cradle. In some districts, however, the saying goes that—

If ye rock the cradle empty,
Then ye shall have babies plenty.

The Sabbath day as birthday is said to confer all the virtues on an infant in addition to good looks, which alone are allotted to Monday's child. The chief characteristic of Tuesday's child is grace, while a happy disposition will belong to Wednesday's child. Woe is in store for the infant born on a Thursday, while Friday's child is destined to godly works. "Saturday's child must work for its living."

Very quaint is the idea that unless an infant goes higher—i. e., upstairs—before it goes lower it will never rise in the world. Under these circumstances if the house possesses no upper staircase wise old verses advise the nurse to take the infant in her arms and mount a chair or pair of steps before she takes her precious charge on its first journey into the outer world.—London Mail.

A Throne In a Tomb.

There has been only one monarch, says a writer, who for 350 years sat on his throne, crown upon his head, scepter in his hand and dressed in the royal robes, keeping solemn dominion over the dead. Charlemagne, the great French ruler, during his life built for himself at Aix la Chapelle, in Prussia, a chapel, and beneath the chapel a tomb. When the monarch died in 814, his body was placed, fully dressed, with scepter and crown, in a sitting position upon a marble throne in this tomb. Nearly 200 years afterward the Emperor Otto III. had the vault opened, and it is said that the body of the great emperor was found in a state of [illegible] still seated upon his throne, the sword by his side and the gospels open in his lap. Again, in 1165, the Emperor Barbarossa—Frederick I.—had the vault opened, and in 1215 Frederick II. took the remains from the silent chamber over which for so many years they had kept guard and had them put into a casket of gold and silver, in which they are still kept.

"Jeems" Went.

Humor lightens everything, even grim war. Jefferson Davis, with all the weight of a war on his shoulders, could yet spare time to appreciate and respond to an artless appeal. The incident is related by Captain Sutherland. Among the numerous papers received by the Confederate president the following turned up one day:

Dear Mr. President—I want you to let Jeems C. of Co. onth, 5th South Carolina regiment, come home and get married. Jeems is willin', I is willin', his mammy say she is willin', but Jeems Capt'in he ain't willin'. Now when we all are willin' 'cept Jeems Capt'in, I think you might let up and let Jeems come. I'll make him go straight back when he's done got married and fight hard as ever. Your affectionate friend.

Mrs. Davis, telling the story, added that Mr. Davis wrote his directions in regard to the matter on the back of the letter. They were:

"Let Jeems go."

To Clarify Vinegar.

To clarify vinegar and even muddy wine pour into a bottle of it half a teacupful of fresh, sweet milk and let the whole stand for twenty-four hours. As the sediment will settle to the bottom with the curdled milk the clear liquid may then be poured off into another bottle.

A FAMOUS KEY.

It Was Thrown Into Loch Leven When Queen Mary Escaped.

The interesting key of Loch Leven castle is still in existence. It was found in the lake and is supposed to have been the one thrown in by the young Douglas when Mary, queen of Scots, made her escape. The key was originally in the possession of William Harper, [illegible] ented it to Sir Walter Scott, having first had an engraving made of it.

The castle of Loch Leven is situated on an island of about two acres near the northwest extremity of the lake. Queen Mary when she dismissed Both, well on Carberry hill and joined the insurgents was carried captive into Edinburgh and on the following day committed to Loch Leven castle. On the 25th of March, 1568, she attempted to escape thence in the disguise of a laundress, but was frustrated.

On Monday, May 2, 1568, however, while the family were at supper the boy, William Douglas, secured the keys of the castle and gave egress to the queen and her maid from the stronghold; then, locking the gates behind them to prevent pursuit, he placed the fugitives in a boat that lay near at hand and rowed them to the appointed landing place on the north side of the lake.—Strand Magazine.

Too Much Culture.

"Aunt Penelope Wiggins," as everybody called her, was visited one summer by a niece, a [illegible] graduate. [illegible] the most [illegible] she was not greatly impressed by the superior learning of her young relative, and one day she freed her mind about her thus:

"Talk to me about what a college education does for a girl! What do you suppose Matilda said to me the first day she came? She said: 'I'm so glad to meet you, aunty! You accent your name on the Aunty Penultimate, don't you?' Did you ever hear such nonsense? I had to tell her my name wasn't Aunty Penultimate, but Aunty Penelope, and I thought she would die a-laughing!"

The Turkish Janizaries.

The Turkish janizaries (yeni askari, new soldier) were originally Christian captives, who in the middle of the fourteenth century were trained to be the bodyguard of Sultan Amurath I. Originally they numbered 1,000, but after 300 years they had increased a hundredfold, and under Solyman the Magnificent they formed a force highly disciplined and noted for the wild impetuosity of their attack. The history of these janizaries abounds in conspiracies and atrocities of every kind, so that at last they became more dangerous to the sultan than his foreign enemies. The lowest officers of this force were the cooks, who were held in the greatest esteem. They wore wooden spoons in their turbans and on great occasions mustered round their kettles, which they turned upside down as a token of revolt. To lose one of these kettles in battle was as much of a disgrace as the loss of a regiment's colors has been in later times.

WHAT HE WANTED.

New York Salesman Did Not Find it Until He Reached Dixon

Irving Johnson, a drummer who is well known to many of our merchants, was in town yesterday, stopping at the Nachusa Hotel, where the Telegraph man heard him tell a few new stories that he had collected on his last trip.

"I am glad to see," said Mr. Johnson, "that Dixon is right-up-to-date in cigars as well in other things. I have been hunting for a Wadsworth Bros.' Chicos the last half dozen towns, and did not find one until I went into Leake Bros. this morning. That cigar is all right, I can tell you, and although it cost only 5c., yet I push them out to my customers, knowing that they will think it is a 10c. or two for a quarter."

The Wadsworth Bros.' Chicos is an all Havana filled cigar that smokes just as a cigar ought from start to finish, burning evenly with a long, clean, firm ash.

Its flavor appeals to the lover of high grade cigars, and its price to all sensible smokers.

FIRST CHAIN CABLES.

They Supplanted the Use of Hempen Rope on Warships.

The first man who succeeded in making a useful chain cable was Robert Flinn, and he experimented with it in 1808 in a small ship named the Anne and Isabella, of 300 tons burden. His cable was made of very short links, with no stay pins or studs, says the London Globe, but it served its purpose and was, moreover, favorably reported upon by some of the progressive seamen of the time.

At about the same period a lieutenant in the navy named Samuel Brown was also experimenting with chain cables made of twisted links, and this when it was duly patented he brought to the attention of the navy board. After much discussion it was decided to give Lieutenant Brown the command of a sailing vessel, the Penelope, and send him on a voyage to Martinique and Guadeloupe. At his own expense he was to supply chain cables for the ship, and they were to be experimented with on the voyage. During the four months the ship was away the new cables were given a thorough trial and proved quite satisfactory.

When Brown made his report a committee was appointed to advise as to the adoption of the chain cable in place of the hempen, and as a result the new tackle was gradually introduced into men-of-war. Between 1810 and 1811 the first chain cables were served out to the ships, but the full complement of hempen ropes was still retained. This system remained in force until 1844, when the number of hempen cables was reduced to three, and in 1847 a further change was ordered, two hempen cables only being retained as principal mooring tackle.

During the Russian war the superiority of chain cables was amply demonstrated on many occasions. The vessels were exposed to the gales and hurricanes of the Baltic and the Black sea, but whereas the men-of-war with these chains were able to keep their moorings in the roughest weather many of the merchantmen transports, fitted only with hempen ropes, broke away and met with disaster. And so an ancient industry, one which in early days was almost a monopoly in Dorsetshire, was placed infinitely in a secondary rank. No act of parliament such as that of Henry VIII. ordaining that "no person but the inhabitants only shall make cables" could bring back the prosperity to Bridport which that town had enjoyed in the earliest days of England's naval glory. A modern battleship carries four main cables and anchors, each costing about £1,200. This gives her a total of 450 fathoms of chain cable.—London Globe.

The Alpine Good Night.

Among the lofty mountains and elevated valleys of Switzerland the Alpine horn has another use besides that of sounding the far famed "Ranz des Vaches," or cow song, and this is of a very solemn and impressive nature. When the sun has set in the valley and the snowy summits of the mountains gleam with golden light the herdsman who dwells upon the highest habitable spot takes his horn and pronounces clearly and loudly through it, as through a speaking trumpet, "Praise the Lord God." As soon as the sound is heard by the neighboring herdsmen they issue from their huts, take their Alpine horns and repeat the same words. This frequently lasts a quarter of an hour, and the call resounds from all the mountains and rocky cliffs around. When silence again reigns the herdsmen kneel and pray with uncovered heads. Meantime it has become quite dark. "Good night!" at last calls the highest herdsman through his horn. The words resound from all the mountains, the horns of the herdsmen and the cliffs, and the mountaineers then retire to their dwellings.
